Lead time

Pricing of a product needs to factor the above mentioned issues and elements that are typical of a specific application development or process which may include incremental delivery, product building, research etc. Accommodating all these factors in a simple pricing model is by no means simple. Syntechs is aware that clients and customers are looking for simple pricing matrices that help them quickly calculate, evaluate and compare the pricing of solutions.

Four Ways to Book

17 Aylmer Parade, Alymer Close, East Finchley, London
2 Kanike Close off Awolowo Rd, Ikoyi Lagos, Nigeria

SYNTECHSYS TECHNOLOGY SERVICES, TRAINING COURSES ON ELEKATRA STUDIO PROFESSIONAL

Training Centers at:

- New York City, United States
- Victoria, United Kingdom
- Lagos, Nigeria
- UAE Dubai, Qatar

© Syntechs Corporation Inc. (United States)

What are the Potential Benefits of using or participating in our training as a certified eLeakTra User Professional?

- Overall improved efficiency of your Process and Business Systems
- Tremendous Cash Savings and Benefits using our real-time model approach
- Low Cost Threshold
- Sustain ability of your Business and Process Systems through focus Integrity Management
- Meeting up to your Production Targets and Business Forecast
- Implementing digital measurement and reporting instrument Systems
- Effectively use of our software for bench marking sensors, instrumentation and safety systems
- Opportunities for employment in the Oil and Gas Industry
- Advancing your Career
- Identify the opportunities in benefits in users and utilities

Who will Benefit from our certified eLeakTra Professional Training Courses

The course Modules and training is aimed at business managers, engineers and supervisors, students, graduate students, researchers, development engineers, CEO'S, Management Staff

Engineering Services
Training Course

CERTIFIED ELECTRA-iMonitors USER
TRAINING COURSE OUTLINE

eLEAKTRA® Studio NT® professionals

This course is to provide eLEAKTRA® studio NT® professionals with the knowledge and skills necessary to support Eleaktra Studio® 2007software. This is a performance-based course; designed around related tasks, a support professional must perform using new or modified features eLEAKTRA® studio NT® software system. Syntechsys IT Technology Education, a Certified Partner for learning cutting edge technology and Integrated E-Business Solutions portends to be one of the most cutting-edge technology training centers in the United States and globally. We are currently training enterprise clients, engineers, students, researchers and users of Syntechsys products nationwide on Syntechsys technologies. Syntechsys training is one of our core focus areas; others are consulting, engineering, project management, software development and integration, OEM Licensed Manufacturers. Our instructors have received training from Syntechsys developers. Our customized development and administration training would afford you the opportunity to participate in projects awarded to Syntechsys from our many enterprise clients.

In 2007/2008, Syntechsys plans to deliver development and administration courses and road shows for our users and clients in all of the major states globally in UAE, Europe, Asia, Africa, and Canada.

1.1 CERTIFIED LABVIEW PROGRAMMER-PREBASICS

NI Instruments Labview is an Industry-leading software tool for creating design, control and test systems. Since its introduction in 1986, engineers and scientists worldwide have relied on NI Labview graphical development for projects throughout product design cycle, gaining improved quality, shorter time to market and greater

engineering and manufacturing efficiency. The graphical data flow language of LABVIEW naturally represents the signal flow of data in your application and intuitively maps interface controls to your data for easy view in and modifications. Since Syntechsys is at the front of

Leading Software Technology, Syntechsys via the NI Alliance Partnership Program has partner with companies which have affiliation with NI for the following

|----------|-------------------------------------|------------|
| | | Price List |
| SYNT 101 | Virtual Instruments | \$00 |
| SYNT 102 | Dataflow Programming | \$00 |
| SYNT 103 | Textual and Graphical Tools for | \$00 |
| SYNT 104 | Signal Processing, Analysis & Maths | \$00 |
| SYNT 105 | Interactive Development Tools | \$00 |
| SYNT 106 | Modularity and Hierarchy | \$00 |
| SYNT 107 | Compiled Execution | \$00 |
| SYNT 108 | Open language | \$00 |
| SYNT 109 | Team Development Tools | \$00 |
| SYNT 110 | Target Management | \$00 |
| | | \$5000 |

1.2 CERTIFIED eLEAKTra LABSTUDIO MANAGER

| | | |
|-----------|--|------------|
| | | Price List |
| SYNT 201. | Interactive Network, SQL-Compliant Database | |
| | For distributed empirical data logging | \$00 |
| SYNT202. | Configuration based alarms and events | \$00 |
| SYNT 203 | Real-time and historical trending | \$00 |
| SYNT 204 | Event driven architecture with OPC | |
| | Client/Super Connectivity | \$00 |
| SYNT205 | Unlimited tags for leak detection studies | \$00 |
| SYNT206 | User-Level application security | \$00 |
| SYNT207 | Built in networking for Data Sharing and third party | \$00 |
| SYNT208 | Empirical Database Spreadsheet | \$00 |
| SYNT209 | Empirical Results Report Sheets | \$00 |
| SYNT210 | Measurement Specific functionality | \$00 |
| SYNT211 | Modular Test Execution System | \$00 |
| SYNT212 | Smart In Built User NetID Manager | \$00 |
| SYNT213 | Leak Detection and Flow Calibration Studies | \$00 |
| SYNT214 | Output Empirical Simulation & Charts | \$00 |
| SYNT215 | Leak and Flow Simulation Studies | \$00 |
| SYNT216 | Customized Flow-Leak Detection Rig | |
| | equipment Design | \$00 |
| | | \$10,000 |

1.3 CERTIFIED eLEAKTra FIELD STUDIO MANAGER

| | | |
|----------|--|----------|
| SYNT 301 | Data Monitoring and Management Expert | \$000 |
| SYNT302 | Instrumentation Sensors Design Expert | \$000 |
| SYNT 303 | Expert Report and Data Transmission Professional | \$000 |
| SYNT 304 | Switches, Vision & Motion | \$000 |
| SYNT 305 | Modal DAQ Systems, SCXI Signal Conditioning | \$000 |
| SYNT 306 | SCADA MANAGER Developers | \$000 |
| SYNT 307 | Pipe-Design Studio Enterprise Developers | \$000 |
| SYNT 308 | PAC and Integrated Sensor Configuration Experts | \$000 |
| SYNT 309 | Process Studio Field Professional | \$000 |
| SYNT 310 | Customized System Operators | \$000 |
| SYNT 311 | Leak Detection & Corrosion Expert Manager | \$000 |
| SYNT 312 | Customized Control Station, Barge Rov | |
| | Model Design Expert | \$15,000 |
